20 ment evidence-based, trauma-informed practices to other-
21 wise improve the investigation of, and response to, sexual

25 (a) FINDINGS.—Congress finds the following:

1 (1) Forensic science is the application of scientific or technical practices to the recognition, collection, analysis, and interpretation of evidence to establish conclusions or opinions, facts, and findings that can be used for criminal and civil law or regulatory issues.

7 (2) In particular, forensic science plays a pivotal role in exonerating suspects and wrongfully convicted individuals, implicating and convicting those who commit crimes, identifying missing person, bringing closure and justice to victims of crime and their families, providing actionable intelligence to law enforcement agencies to solve and prevent crime enabling transparent intelligence-led and data-driven policing, and by providing fact-based evidence for judges and juries which would otherwise not be available.

18 (3) In 2009, the National Academy of Sciences, National Research Council published a report entitled “Strengthening Forensic Science in the United States: A Path Forward,” that put forward an agenda for advancement in the forensic science community and its associated disciplines.

24 (4) Within the Department of Justice, Office of Justice Programs there was established the National

1 Institute of Justice. The Office of Investigative Fo-
2 rensic Sciences was created as a component of Na-
3 tional Institute of Justice to be the lead department
4 in the Department of Justice for forensic science re-
5 search and development as well as for the adminis-
6 tration of programs that facilitate training, improve
7 laboratory efficiency and reduce backlogs, all in an
8 effort to strengthen forensic science in the United
9 States.

10 (5) The forensic sciences within Federal Gov-
11 ernment departments and agencies are fragmented,
12 with many Federal agencies having some level of fo-
13 rensic science capabilities. There is a need for a cen-
14 tral entity to provide robust leadership on forensic
15 science issues within the Department of Justice. The
16 Office of Investigative Forensic Sciences, currently
17 as a component of the National Institute of Justice,
18 does not have the same standing within the Office
19 of Justice Programs or the Department of Justice
20 as other equally important bureaus and offices.

21 (6) The time is right to realign the Office of In-
22 vestigative Forensic Sciences to the same program
23 office level as other Office of Justice Programs bu-
24 reaus and offices with a presidentially appointed di-
25 rector.

1 (b) ESTABLISHMENT OF THE OFFICE OF INVESTIGA-
2 TIVE FORENSIC SCIENCES.—Part A of title I of the Omni-
3 bus Crime Control and Safe Streets Act of 1968 (34
4 U.S.C. 10101 et seq.) is amended by adding at the end
5 the following:

6 **SEC. 110. OFFICE OF INVESTIGATIVE FORENSIC SCIENCES.**

7 “(a) IN GENERAL.—There is established, within the
8 Office of Justice Programs, a program Office of Investiga-
9 tive Forensic Sciences (referred to in this section as the

11 President, who shall report directly to the Office of Assist-
12 ant Attorney General for the Office of Justice Programs.

13 “(b) TRANSFER.—There shall be transferred to the

20 sic science within the judicial system by supporting foren-
21 sic science service providers, as they continually improve
22 the evidence-based, valid, and reliable practice of forensic
